Dear Russell,

It is very seldom that the RAGES Committee requests the assistance of its members with a particular issue. However as many of you may have seen in other forms of media, this LNER May 2022 Timetable Consultation poses a real threat to services in our area. These threats to services, if they are not addressed by all of us, will indeed become reality!

Please read the file here: <http://www.rages.org.uk/downloads/Proposed%20LNER%20Timetable.pdf> and make your comments known as described on the first page of the document.

Also included in the document are the RAGES Responses to the TransPennine Express, LNER and Cross Country Consultations.

John Lamont MP met RAGES Committee members, Barrie Forrest BEM, Tom Dickson and Tom Thorburn at the construction site of the new Reston Station on Wednesday 7<sup>th</sup> July. John said he has a meeting with Transport Secretary, Chris Heaton-Harris on Tuesday 13<sup>th</sup> July where he will be putting across all our concerns with regard to this proposed timetable.

Kind regards,

Tom Dickson  
RAGES Membership Secretary
